

During the month of April Sacred Heart/Sacré Coeur in Estevan, SK had two very special guests come to the school from Regina. Braden and Michelle, who work in youth ministry for the Archdiocese of Regina, were at the school to help highlight some of the messages that God gives us about treating others with respect. In a school-wide mission and devotion setting, Braden and Michelle showed students and staff - using song, game and conversation - how God wants us to treat our neighbors and how others should treat us. The School also had the opportunity to host a mass at St. John the Baptist Parish. Students took leadership roles in all ministries including proclaiming the word of God.

This amazing month was followed up by the celebration of Catholic Education Week. During this time, students and staff focused on prayer and care for the environment. Pictured are some very special trees: outdoors is the prayer tree filled with ribbons of thanksgiving and praise and indoors is an awesome reminder about our responsibility for the environment.
