Christ the Teacher Catholic School Division is committed to working together with parents and caregivers in partnership to promote faith formation and student learning. We believe education is a collaborative process involving close interaction among the family, parish, and school.

To provide parents the opportunity to offer feedback into the programs and services available in our schools, CTTCS is committed to conducting a parent survey biennially. Division results, as well as school-based reports, are reviewed to highlight areas of celebration of the good work occurring in our schools and Division. Data also informs Division and school staff of areas that may be targeted for action planning and improvement.

The survey gathers information on four dimensions of school: Faith Formation, Student Learning, School Climate, and Communications.
