

St. Michael School Tigers Give and Grow

The St. Michael School staff of Weyburn, SK demonstrated a spirit of generosity as they participated in a Faith Day experience by volunteering at The Food Bank in Regina, SK. All staff members took the school bus trip into the capital city to lend their hearts and hands (to grow in faith) by providing support for community. The learning included viewing the green house and recycling operations that accompany the well-known coolers of food. There, they had the opportunity to prepare grocery packages for the upcoming busy Christmas season. Our adults learned:

- the Regina Food Bank feeds 8,500 - 10,000 people every month
- 42% of their clientele are children
- 100 tons of food is processed each month

The team that this staff has created – for the care of their students and the community – is powerful and inspiring. Given the various gifts and talents of the many members, it is difficult to determine a task that they would not accomplish!
