

Encouraging Care for the Environment

During the Autumn months of the 2019-20 school year, GFL (Green For Life) in Estevan, SK invited the grade 4 through 8 students at the Holy Family RCSSD #140 schools in the community to participate in a contest. The contest would serve a few purposes.

First of all, the opportunity to form a partnership with the schools and GFL working together to promote stewardship of the environment as well as proper recycling practices. Secondly, the students would engage in a colouring activity showcasing their gifts and talents. Finally, the winning entry would become a wrap on the large recycling bins located at each school for all to see providing some great marketing.

Congratulations to the contest winners from Sacred Heart/Sacré Coeur and St. Mary's!

(Winning students enjoying the big reveal of their submission)
